Sleep Pattern: 11 pm - 7 am (occasionally disrupted)

Stress Level: High

Daily Water Intake: 4-5 glasses

Wellness Goals: Weight gain (3-4 kg), boost immunity, reduce stress, improve sleep

1. Four-Week Meal Plan (Vegan, Gluten-Free, Indian Inspired)

This meal plan focuses on calorie-dense, nutrient-rich vegan options to support weight gain and boost immunity. Portion sizes should be adjusted based on hunger and energy levels. Remember to incorporate variety to prevent nutritional deficiencies.

Note: This is a sample plan. Adjust portion sizes and specific ingredients based on individual preferences and availability.

Day | **Breakfast** | **Mid-Morning Snack** | **Lunch** | **Afternoon Snack** | **Dinner** |

---|---|---|---|---|

Week 1, Day 1 | Oatmeal with banana, nuts, and seeds | Handful of almonds and raisins | Lentil soup with brown rice and chopped vegetables | Apple slices with peanut butter | Chana Masala with brown rice and spinach |

Week 1, Day 2 | Tofu scramble with whole-wheat toast (gluten-free) and avocado | Trail mix (nuts, seeds, dried fruit) | Vegetable biryani with chickpeas | Banana smoothie with almond milk and protein powder | Vegetable curry with quinoa |

Week 1, Day 3 | Vegan yogurt with berries and granola (gluten-free) | Small bowl of fruit salad | Mixed vegetable and lentil curry with brown rice | Roasted chickpeas | Aloo Gobi (Potato and Cauliflower Curry) with roti (gluten-free)|

Week 1, Day 4 | Smoothie with spinach, banana, mango, and almond milk | Dates and walnuts | Rajma Chawal (Kidney bean curry with rice) | Small bowl of mixed nuts | Palak Paneer (Spinach and Tofu Curry) with brown rice |

Week 1, Day 5 | Idli (steamed rice cakes) with sambar (lentil-based stew) and chutney | Peanut butter sandwich on gluten-free bread | Vegetable pulao with raita (yogurt dip) | Fruit and nut bar (gluten-free) | Moong Dal Cheela (Savory pancakes) with chutney |

| ****Week 1, Day 6 & 7**** | Repeat favorite meals from the week | Repeat favorite snacks | Repeat favorite meals | Repeat favorite snacks | Repeat favorite meals |

******(Repeat a similar structure for Weeks 2, 3, and 4, substituting different vegetables, lentils, and spices to ensure variety.)****** Consider incorporating different types of lentils (masoor, toor, etc.), different grains (oats, quinoa, millet), and a variety of vegetables (carrots, peas, beans, etc.)

2. Daily Routine Recommendations

****Wake up:**** 7:00 AM

****Breakfast:**** 7:30 AM - 8:00 AM

****Morning Activity:**** 30-minute yoga or stretching, followed by a 30-minute brisk walk (increase duration gradually)

****Work/Business:**** 9:00 AM - 5:00 PM (Incorporate short breaks for movement and stretching)

****Dinner:**** 7:00 PM - 7:30 PM

****Evening Relaxation:**** 8:00 PM - 10:00 PM (reading, meditation, warm bath)

****Sleep:**** 11:00 PM

3. DOs and DON'Ts

****DOS:****

- * Drink at least 8 glasses of water daily.
- * Eat regular, balanced meals.
- * Incorporate strength training exercises 2-3 times a week (consult a trainer).
- * Practice stress-reducing techniques like yoga, meditation, or deep breathing.
- * Get 7-8 hours of quality sleep.
- * Maintain a dust-free environment.
- * Read food labels carefully to avoid gluten.
- * Gradually increase exercise intensity and duration.
- * Track your food intake and weight progress.
- * Consult a doctor or registered dietitian for personalized guidance.

****DON'Ts:****

- * Skip meals.
- * Consume processed foods, sugary drinks, and excessive caffeine.
- * Stay sedentary for long periods.
- * Neglect sleep hygiene.
- * Ignore stress management.
- * Expose yourself to dust.
- * Consume gluten-containing foods.
- * Rush into intense exercise without proper preparation.

4. Summary and Follow-up Recommendations

This wellness plan provides a framework for Kavita to achieve her goals. Regular monitoring and adjustments are crucial. We recommend a follow-up appointment in four weeks to assess progress, address any challenges, and refine the plan based on individual needs and responses.

****Follow-up Recommendations:****

- * Weigh-in and discuss weight gain progress.

- * Evaluate sleep quality and stress levels.

- * Assess any dietary challenges or preferences.

- * Adjust meal plan and exercise routine as needed.

- * Consider introducing strength training exercises.

- * Explore stress management techniques like mindfulness or therapy.

This plan is a starting point. Working closely with healthcare professionals, including a registered dietitian and potentially a therapist, will ensure personalized support and optimal results. Consistency and patience are key to achieving long-term wellness.
